# About Us

KME International S.A. is a transportation and logistics services broker focused on the operational needs of exporting and importing companies.

Focused on your company's needs and with high service standards, we seek to strengthen your value chain and efficiency, reducing the possibility of hidden costs that could affect your competitiveness and business development.

# SERVICES

KME International offers efficient and secure transportation solutions, with our expertise focused on container transport, based on the goal of quality service and compliance throughout the country.

Our greatest strength lies in a supplier portfolio that includes a fleet of over 400 trucks.

The pre-established operational procedures tailored to each client's needs allow us to optimize the value chain and reduce hidden operational costs.

Advanced scheduling, collaboration with the client and supplier, monitoring, and systems provide order and relevant information so that you and your company can optimize your time by relying on the expertise of our staff.

Including container insurance in our service complements our commitment and responsibility towards eliminating hidden costs.

# MISSION-VISION

---

01

To be chosen as the first option by our clients in the development of their exports and imports, based on trust, quality, service, operational efficiency, and effectiveness.

02

The effort, passion, creativity, and intelligence to anticipate customer satisfaction by focusing on their needs in a timely and efficient manner, generating savings for their greater development through a reliable and environmentally sustainable service.

03

Environmental protection with a common goal. Conducting sustainable business within the culture and legal framework. Our staff is in continuous development and training, providing growth. Our brand is recognized for transparency and commitment in pursuit of the common good.

# MEET OUR TEAM

Our team is made up of passionate professionals committed to excellence. Each member brings experience, strategic vision, and dedication to achieve outstanding results. We value collaborative work, constant innovation, and joint growth with our clients.

On-time and proper delivery

● Incidents ● Completed

## **TOTAL OF 30,000 CONTAINERS**

Since its founding, KME has moved over 30,000 containers with only 6 incidents (4 thefts and 2 rollovers), making us a reliable partner for your logistics.

# WE ARE THE BEST CHOICE

## Improved visibility in container transportation

Companies can know the location of their container at all times, allowing them to optimize routes, anticipate possible delays, and improve communication with their customers.

## Increase in operational efficiency

Real-time tracking allows companies to reduce costs and improve overall operational efficiency.

## Improved cargo security

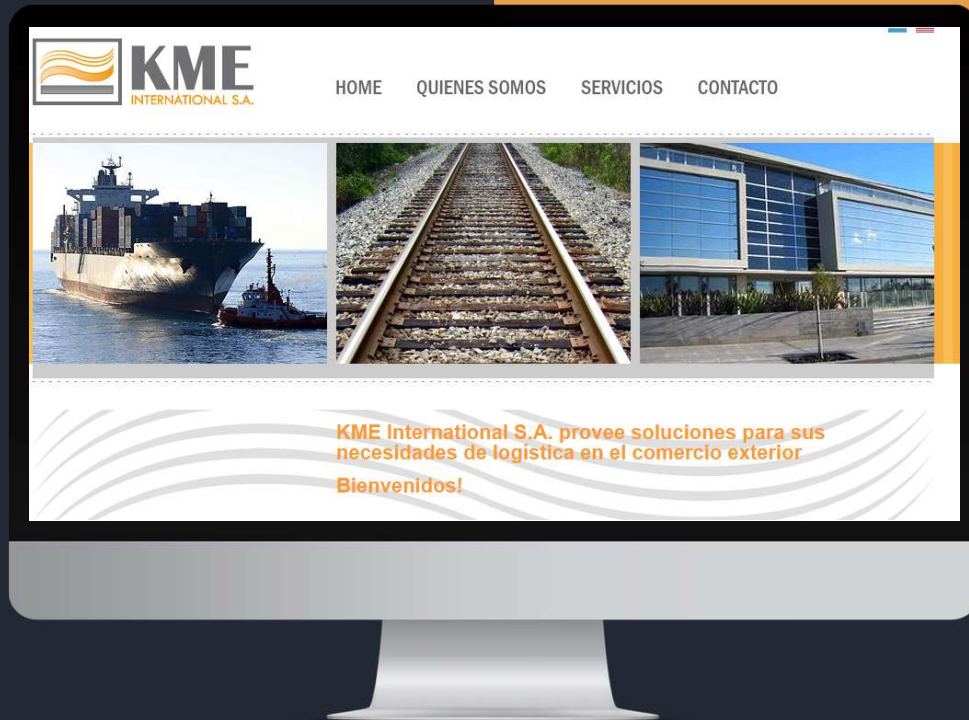

Constant container monitoring allows the company to detect and prevent theft, damage, or loss, resulting in greater security for their merchandise.

## Improved customer satisfaction

The customer receives real-time information about the status of their container,
