ABOUT US

**Offering excellence
through experience**

We are a transportation and logistics services broker focused on the operational needs of exporting and importing companies. With high service standards, we strive to strengthen your value chain and efficiency, reducing the possibility of hidden costs that could affect your competitiveness.

KME International offers efficient and secure transportation solutions, with our expertise in container transportation, based on the goal of quality service and compliance throughout the country.

History

KENNETH JOHNSON

Born in 1954 in Kansas City (USA), he has over 30 years of experience in the maritime, logistics, and port industries. He has lived more than 20 years in South and Central America, holding key roles at APM-Maersk, such as Director of Pacific Services and Senior VP of Projects for Central America. He led the establishment and expansion of the group in the region, managing transportation companies, logistics, port terminals, and container services in Chile, Bolivia, Argentina, Uruguay, Paraguay, and Mexico. His strategic vision has been fundamental for the group's entry and consolidation in new markets.

ERNESTO LABORDE

Born in 1962 in Lomas de Zamora, he began his career at Ferrocarriles Argentinos in 1983. In 1987, he held commercial and managerial positions at Estin S.A., Conjunto S.A. (as commercial manager), and Marítima Buenos Aires. He was Sales Manager at Maersk Argentina, commercial manager, and project manager, where he implemented a multimodal service to Palpalá using the Belgrano railway, a feeder project to Patagonia. Later, he served as General Manager of SATSA, EMR, and the warehouses in Mar del Plata, Puerto Deseado, Ushuaia, and Puerto Madryn, developing and implementing these projects.

At Maersk Logistics, he was a board member of Maersk Argentina S.A. and worked on the privatization project of the port of Montevideo. He advised Maersk Logistics Venezuela in 2002.

In 2003, he assumed General Management of Triamsa (Mexico), part of the A.P. Moller-Maersk group, as Country Manager, joining the board of Maersk México S.A. de C.V., where he led operations and developed a visibility system for land transportation.

Upon his return, he worked at Navytrans and served as an advisor at the Administración General de Puertos S.A. between 2015 and 2019.

Founder of KME INTERNATIONAL, general manager and president since its creation in 2010. He developed the CTS (Container Tracking System), an operating system based on Standard Operating Procedures and high KPIs in the container and breakbulk cargo market.

The heart behind our service

Misión

To be chosen as the first option by our clients in the development of their exports and imports, based on trust, quality, service, operational efficiency, and effectiveness.

Vision

The effort, passion, creativity, and intelligence to anticipate customer satisfaction by focusing on their needs in a timely and efficient manner, generating savings for their greater development through a reliable and environmentally sustainable service.
